Summary

Accounting and Finance student at the University of Toronto Mississauga with experience in financial analysis, debt restructuring, client service, and small-business finance. Skilled in analyzing financial information, coordinating complex files, and communicating with professional stakeholders. Interested in valuation, financial due diligence, transaction-related work, and finance-focused technology.

Education

University of Toronto Mississauga

Expected April 2028

Honours Bachelor of Business Administration (BBA)

Specialist in Accounting and Finance | Major in Economics | Minor in Computer Science

Relevant Coursework: Corporate Finance II, Intermediate Accounting I, Managerial Accounting I, Financial Distress and Insolvency, Data Analysis and Applied Econometrics, Legal Environment of Business I

Professional Experience

Financial Debt Advisor

June 2025 – April 2026

msi Spergel Inc. / Licensed Insolvency Trustee Firm

- Managed the progression of 90+ consumer proposal files, coordinating financial documentation, client communication, internal review, creditor correspondence, and follow-up requirements
- Analyzed client income, expenses, assets, liabilities, and cash flow to assess repayment capacity and support feasible debt-restructuring recommendations
- Prepared financial summaries and supporting documentation for review by Licensed Insolvency Trustees and creditors, improving file readiness and decision-making
- Collaborated with trustees, administrators, creditors, and clients to resolve file issues and support proposals that reduced some clients' debt burdens by up to 80%

Client Relations & Finance Partner

February 2024 – June 2025

PikturIt Media Production

- Managed pricing, invoicing, expense tracking, cash flow, contracts, and vendor relationships for a small professional services business
- Negotiated client and vendor terms while balancing service quality, project requirements, margins, and delivery timelines
- Contributed to hiring, equipment investment, business development, and operating decisions supporting company growth
- Prepared project budgets and monitored costs and receivables to support timely delivery and profitability

Selected Project Experience

Personal Hub | Self-Hosted Software System

2026 – Present

- Built a browser-based personal software environment for file storage, document utilities, automation, information access, and cross-device workflows
- Developed the application using Flask, HTML, CSS, and JavaScript, with local file and JSON-based storage and session-based authentication
- Integrated financial, legal-entity, weather, and economic data sources while troubleshooting deployment, media playback, and resource management issues

Chipotle Equity Valuation and Financial Analysis | Academic Project

2025

- Evaluated profitability, liquidity, leverage, efficiency, and cash-flow performance through financial statement and ratio analysis
- Applied DuPont analysis and valuation methods to assess operating performance and develop evidence-based conclusions
